

## Product Care: Cleaning and Maintenance

### **OTRATEx**

Cleaning Code: WS (water or solvent based spot clean)

#### **GENERAL CARE**

The best way to keep Fil Doux vinyl looking good is to properly maintain it.

Maintain vinyl by wiping away ordinary dirt and smudges with a mild soap and water solution and gentle sponge.

Dry with a soft, lint-free cloth or towel.

#### **SPOT CLEANING**

1. Treat stains as promptly as possible.
2. Using a clean dry white cloth, apply pressure to the stain and blot. Working from the outside of the stain, rotating often to prevent transfer of the stain from the cloth. Avoid Rubbing.
3. For harder to remove stains, 70%+ Isopropyl alcohol\* can be applied directly to the stain. Repeat step 1 (*always pretest any cleaning agent in an inconspicuous location*).

*\*on Vinyl with the **Pro-Tech PLUS** treatment, 10% bleach mixtures may also be used.*
